

TRADITIONAL INDOOR

4-Person Indoor Traditional Sauna Double Bench with 6kW Harvia Heater

The Tiburon 4-person indoor traditional sauna is constructed of aged Canadian hemlock wood for a durable cabin with a natural appeal. Two-tiered bench seating provides a great way to recline and comfortably enjoy the sauna. The 6.0 kW Harvia heater produces temperatures up to 170 degrees, while the cask and spoon allow you to add water to the heater stones to generate steam. Standard features include a thermo-hygrometer for displaying the humidity level, ergonomic seating for comfort and convenience, a sand timer, interior lighting, and a ventilation system.
