

TRADITIONAL OUTDOOR

Cayman 4-Person Outdoor Traditional Sauna Double Bench with 6kW Harvia Heater

The Cayman 4-person outdoor traditional sauna is built for real weather: premium Canadian hemlock, double-panel wall construction, a sealed weather-resistant cabin, and a durable metal roof. Inside, upper and lower benches seat four comfortably while the genuine 6kW Harvia electric heater with stones brings the cabin up to 180°F in about 30-45 minutes. Pour water over the stones for authentic wet/dry löyly. Ambient dome lighting, a thermohygrometer, and a sand timer are included, and simple DIY assembly takes about an hour.
